

2nd March 2002

I have been seeing Mr Stephen Allen since October 2000, when my own G.P advised me to seek alternative therapy as there was no more he could do for me, as I suffer from Polymyalgia Rheumatica and M.E and the only treatment my G.P could give me for the M.E were anti-depressants, but Stephen has helped me and now I am able to cope with day to day life.

Yours sincerely

*Valerie P. Bingham*
