

ME and Viral

Morning Stephen, I came to you last year for a course of treatment for my M.E. I mentioned I suffered from reoccurring cold sores, which you treated. I had a brilliant cold sore free year, however I think the virus has returned.

Is it treatable again? If so, please could I make an appointment. I now work full time after my recovery from your testing and treatment so can only do from 4.15pm Tuesday, Wednesday and Fridays.

Kind Regards

J, S. Lincoln
