

May 2013

To whom it may concern:-

At a time when I was very poorly and getting nowhere with my C.P. I went to a talk by

Stephen Allen all about M.E.

I decided to book an appointment to see him in utter desperation. (as I have M.E.)

Mr Allen tried several things to help me and I did improve. He is tenacious and like a dog with a bone just wouldn't give up on me.

Eventually he found out I had mercury poisoning and a terrible bacteria in my gums.

It seemed unbelievable at the time, but I was so very ill. After some months of treatment and removing my silver fillings - I got better.

Without Mr Allen's expertise I dare to think what could

have happened to me.

I would not hesitate in recommending Mr Allen to anyone who feels ill. I know he would help them. I rate his knowledge far above my C.P. and Dentist and I would see him again with absolute trust, for any medical matter.

Yours Sincerely

Ms. h. [redacted]
